VINTAGE A year characterized by a very unpredictable weather on which few Houses have decided to vintage their wines. This year's champagnes were marked by cold temperatures. The weather therefore required the Houses to work meticulously to select the grapes to show that that certain terroirs were capable of offering beautiful expressions despite the complicated weather.

MOT DU CHEF DE CAVES

“While tasting, the sensations are new: we move away from the classic register with a nose close to perfume: sandalwood, musk, new leather, oriental spices, blond tobacco. In the mouth, the tension is moderate but largely compensated by a rich and complex aromatic, which gives this champagne a character of great wine.”
